Learn to keep the pain you feel
Keep it in don't let it spill.
Under lock and key-
don't let it out.
That's what secrecy's about.
Make it alright,
Keep your eyes shut,
Keep your eyes shut tight,
What you feel ain't bad-
there's no shame,
There's no shame in being sad.
Place yourself in this little page,
Limit your actions.
Dont' be brave in the shadows of everything;
Your the one that's too afraid to win.
Make it alright,
Just keep your eyes shut,
Keep your eyes shut tight!
What you feel ain't bad
'Cause there's no shame,
There's no shame in being sad.

Feel the sharpness of the night,
Walk into darkness-
onto sight.
Oh, but just don't take that final step,
You'll be missed,
You know I care.....
Make it all right,
Keep your eyes shut tight!
Oh, What you feel ain't bad-
'Cause there's no shame,
There's no shame in being sad
