"Into the Now"

Visit "[Into the Now](#)" on MotoLyrics.com

The future's on it's way, the past is gone
Old and rusted, with your busted bones
Break the crystal ball, you're on your own
Wipe away the fear of the unknown

Now, here we go, on with the show
Makin' our way, just living for today
It's in my sight, and the time is right
For takin' a bow, into the now

Guilty of communication crimes
Was it just a binge, or was I blind
Overcoming opened up my mind
Don't let the things from the past eat you up inside

Now, here we go, on with the show
Makin' our way, just living for today

It's in my sight, and the time is right
For takin' a bow, into the now

Is it love that you break, or is it love that you make
Is it love we're breaking, love we're making, or love just
wasting time

Now, here we go, and it's on with the show
Makin' our way, just living for today
It's in my sight, and the time is right
For takin' a bow, into the now
Now, here we go, on with the show
Makin' our way, just living for today
It's in my sight, and the time is right
For takin' a bow, into the now
