"Is It My Body"

Visit "[Is It My Body](#)" on MotoLyrics.com

(Originally by Alice Cooper)

What have I got, that makes you want to love me
Is it my body or someone I might be or something
inside me
You better tell me, tell me, It's really up to you
Have you got the time to find out who I really am ... Ow
ow ... Ow

What does it take to get inside of your mind
Give me a break yea, yeah and take a chance for the
very first time
You better tell me, tell me, it's really up to you
Have you got the time to find out who I really am

What have I got, that makes you want to love me
Now, is it my body or someone I might be or something
inside me
You better tell me, tell me, It's really up to you
Have you got the time to find out who I really am ... Ow
ow ... Ow
