## "Not Fragile"

Comin' to you across country  
Hopin' boogie's still allowed  
You asked do we play heavy music?  
Well, a thunder heads just another cloud and we do

Not fragile, straight at you  
When we vanish through the night  
Still in your ears but out of sight  
Not fragile

Don't think we feel hurt or wounded  
Oh, I'm either showin' through  
It's our road that's been disrupted  
And our streets reflects from you, well it's true

Not fragile over you  
Triumphs in your gettin' down  
Feelin' high or just hangin' 'round  
Not fragile

Not fragile

The times we travel in our lives  
Are hard and fast and give us drive  
We may seem distant most of the time  
But many thoughts are still on our minds

Not fragile, fragile, oh
