"The Game"

Visit "[The Game](#)" on MotoLyrics.com

World's gone mad, hey, the world's on fire
Food's too dear and your gas is higher
Got to eat and you've got to breathe
Got no money, well, it's time to leave

Dow Jones crashes, fat cats get rich
See them laughing at ... Laugh at this
It's a game ... (Big game)
It's just a game ... (Big game)

Profit's in, hey, what's going on
All this time it's the same old song
You've got dough, they will lend you more
When your broke you get shown the door
They'll take your home and they'll take your car
Make you live in your mom's backyard

It's a game ... (Big game)
It's just a game ... (Big game)
It's just a game

Rich get rich then get rich some more
Pretty soon, they'll be all at war
It's a game ... (Big game)
It's just a game ... (Big game)
So who's to blame ... (Big game)
It's just a game ... (Big game)

Playing games with people's lives
Who struggle hard just to survive
The world is going up in flames
Without a cause, it's just a game

It's just a game ... So who's to blame
