[Chorus]: Keep on going you just gotta fight it, keep on
going cause it's
Not too late,
You can't back down, you can't back down.
Keep on going you just gotta fight it(Gotta Fight),
Keep on going cause it's never too late,
You can't back down, you can't back down. (2*)

(1) Verse: For the Lady

You can't back down, never back down, sometimes it's
easy and sometimes
It's hard, those who now praise you will presently blame
you, Praise and
Blame are two worldly conditions that affect mankind,
No one can escape
From from this, as our Lord Buddha told, they who
speak much are blamed,
They who speak little are blamed, they who are silent
are also blamed, In
This world there's none who is not blamed,
I know you,
Regardless your life, you've done a lot and working
hard for the good of
Many and for the good of welfare,
So keep on...

[Chorus]: Keep on going you just gotta fight it, keep on
going cause it's
Not too late,
You can't back down, you can't back down.
Keep on going you just gotta fight it(Gotta Fight),
Keep on going cause it's never too late,
You can't back down, you can't back down. (2*)

(2) Verser: For the People

You can't back down, never back down, coz they're
hurtin our people, and
Our lands are sold out to a pig, we have nothing now,
just only
Poverty with us, never let it go, never let it leave, we're
livin in a
Dream, I know it's hard to reach, but we'll get there

soon, you're not
Alone, I'll be always with you, O C'mon my Bros and Sis,
Come out to the
Street, Express for your freedom, of speech, and
belief, It's not too
Late, never too late to save our motherland,
So wake up, and get up to stand with us

[Chorus]: Keep on going you just gotta fight it, keep on
going cause it's
Not too late,
You can't back down, you can't back down.
Keep on going you just gotta fight it(Fighting),
Keep on going cause it's never too late,
You can't back down, you can't back down. (2*)

(2) Verse: For Everyone/Monks
Don't worry, I won't back down, she won't back down,
they won't back down,
You can't back down, never back down, I know you
won't back down, never
Knee down, you must knock down,
So fight back, and come back with your victory,
Don't forget that, they made you cry and die for
freedom,
I like your good slogan for peace during your protest,
The world said that they know all, but they are coldest,
But we're helpless, all people are homeless and
hopeless,
So we must fight back
[Chorus]: Keep on going you just gotta fight it, keep on
going cause it's
Not too late,
You can't back down, you can't back down.
Keep on going you just gotta fight it(Gotta Fight),
Keep on going cause it's never too late,
You can't back down, you can't back down. (2*)

[Chorus]: Keep on going you just gotta fight it, keep on
going cause it's
Not too late,
You can't back down, you can't back down.
Keep on going you just gotta fight it(Fight Baby),
Keep on going cause it's never too late,
You can't back down, you can't back down. (2*)
