English Translation: The lyrics of meaning actually very
deep.

Disease(Yaw Gar)

All human beings' sufferin is
Disease
Many are facin
Heart Disease
Eating away at the all the human race is
Cancer Disease
Bleeding in the brain is
Cavernoma Disease
At everynight you can't sleep is
Insomnia Disease
Days after day, discovering more and more is
Disease
Unhopefully, Unexpectedly suffering is
Disease

Little sons and daughters' suffer is
Disease
Brothers and Sisters's struggling is
Disease
Daddy and Mommy's facing is
Disease

Grandfather and Grandmother
who can't get up from bed is
Disease

You're not alone, all people are suffering this,
Don't be depressed, and don't give up
(Fighting.....Yah)

(Chorus)

*Don't think, and sit and cry outside alone
O human, thou'll overcome
whatever you're facin and comin
Remember that you're your own saviour
Believe that you'll get well soon* (2)

Grandfather and Grandmother

You're not alone, all people are suffering this,
Don't be depressed, and don't give up
You will get well soon, and may all your
dream comes true

Ahhhhhh.....Fighting
