

Tesla Boy "Dark Street"

Visit "[Dark Street](#)" on MotoLyrics.com

Look, You could be quiet now
Usual talking with a usual friend
In a colourless night
Heart is beating so cold and loud
Game is over try to understand
It was elegance much like love

Walking in the dark street
With thoughts I've never known
Walking in the dark street
I'm happy I'm here alone
Walking in the dark street
Far from the day we've met
Walking in the dark street
Forgetting all the things I can't forget

Stars, they could be bigger now

Haze of memories takes up the light
In this careless night
Time, I had so much to believe
Now that I have so much to forget
It's the reason I'm going out

Walking in the dark street
With thoughts I've never known
Walking in the dark street
I'm happy I'm here alone
Walking in the dark street
Far from the day we've met
Walking in the dark street
Forgetting all the things I can't forget
