I know a woman
She's as cold as stone
And she hides in the shadows
Of an empty road
I tried to break her
But she couldn't be broken
And we walked together
On this empty road

I need a lover
Not just another
Not just somebody to spend the night
You want my reasons
I couldn't tell you
And if I didn't it wouldn't release your mind

I need a happy
Keep me unhappy

I met this girl
Who's born in the 90's
They don't know much 'bout 85's
They're alive
I'm barely breathing
Wanna remember what that feels like

I need a lover
Not just another
Not just somebody to spend the night
Don't need an answer
Don't need a reason
Thing's gonna fuck, but that's alright

I need a happy
Keep me unhappy
Walking on empty streets

I give up
Walking on empty streets
Cause they're filed
With faces of people I never need

I run through the valleys
Between buildings an concretes
All I hear are the echoes
What I want is the heart b-b-beating

I need happy
Keep me unhappy
Walking on empty streets [x2]
