"Nicotine"

Visit "[Nicotine](#)" on MotoLyrics.com

I hate you sometimes
But I love to be your queen
You are my muse
Got me smoking nicotine

I watch you sometimes
From oh so far away
But I can't forget you
Or anything you said

You sang that song in my ear
And it tickled those tiny hairs

Love is a puzzle

Some pieces they adjoin
It's not like that with us
But I keep flipping that coin

I watch you sometimes
From oh so far away
But I can't forget you
Or anything you say

You sang that song in my ear
And it tickled those tiny hairs
