she was hungry so hungry  
she was trying to think clear  
she kept opening the fridge door  
looking at the mustard and the beer  
then finally she went out into the rain  
carrying her bicycle chain  
and her feet worked the pedals  
while her appetite steered

after that she just followed her nose  
and fate is not just whose cooking smells good  
but which way the wind blows

she laid down in her party dress and never got up  
needless to say she missed the party  
she just got sad  
then she got stuck  
she was wincing like something brittle trying hard to  
bend  
she was numb with the terror of losing her best friend  
but we never see things changing  
we only see them ending

and some vicious whispering voice  
keeps saying you have no choice  
you have no choice

cuz when i look at you i squint  
you are that beautiful  
and my pussy is a tractor  
and this is a tractor pull  
i'm haunted by my illicit, explicit dreams  
and i can't really wake up  
so i just drift in between  
thinking the glass is half empty  
and thinking it's not quite full

the pouring rain is no place for a bicycle ride  
try to hit the brakes

and you slide  
and you slide

and you slide
