(scream)

I can feel it when I'm walking down the street  
the kids are crazy but they know where to be  
Well I forgot that you just gotta (catch it)  
when we break it down its just like magic

get ready for the fight  
showing you the way  
I wonder what its like  
do I need to say to you  
to get this party started

listen

my eyes can't believe this mess  
get in line dont try to test  
I got the dream that'll make you bounce back  
feel the beat feel the flow  
it's time to go  
get ready for the fight  
showing you the way  
I wonder what its like  
do I need to say(to you)  
to get this party started

we'll make that shittin' (scream)

I know that sometimes you just need to get away  
well thats cool with me  
whatever happens I just need to know that we can get  
this party started

today yeah
