(Felix)

So I'm up like no doze, 18 wheels and a deadline
for me bedtime is just a fantasy I run the redline

I am young, mixed and mixed up
some times confused
paying my dues
basically I'm you

Give me 3 hours and I'll be Ok
give 5 days and I'll write your favorite song until the
water dries
away

we fight like the brothers we are
shoot for the stars post up beneath the basket and live
it large

there's a million different things that I'm supposed to
do
sometimes I'm god damned surprised that I've coasted
through

lost for a little while living life full throttle
the cause was role models that were beaten ugly
love me or hate me
I've stayed dedicated to you like the first page of any
crappy novel

You went your own way and I went mine
In a while back together just like old times

then you -----
breath in deep
put away the claws and stop bearing your teeth
it's better to speak

(Muad'Dib)

32 months we touched brick to the blueprints and lived
through the
useless trivial trials of young and in denial to the point

where I put a
little tragic behind my eyelids find lies to live and touch
the
terror stone graceless 'til the pain is raceless and
faceless and I
hold it like pedal point across the hands that are
changing 'til I
never trust a soul and just whisper to myself
