One who lives on others to feed. Hello? Hello? At the
expenxe of the host, Hello?

You cannot squish us, like a bug, we're praticly
invisable, we live in your rug. We're the ones that
inhabited the moon, we're the ones that invented the
spoon.

Fungus and parasites hand and hand, we are all
creatures of this land. Parasites and fungus hand and
hand, one of these days we'll conquor this land.

Think you don't have us, but really you don't see, you
really must fear us we're one step up from a flea. Think
of us as nothing but some day you'll fear, and have you
everwondered why your itchin' in the rear?

Fungus and parasites hand and hand, we are all
creatures of this land. Parasites and fungushand and
hand, one of these days we'll conquor this land.

Parasites don't wear underpants (repeated)

They think of us as nothing at all. but they'll remember
us when our alliances fall (repeated)

You can smoke us, burn us or spray us with that goo.
We're inviting you for dinner and the main course is
you (repeated)

Eat this kitten!

Remember Keri Strug? That was us HA Ha ha ha.

You can smoke us, burn us or spray us with that goo.
We're inviting you for dinner and the main course is
yousdaa (Hack Hack Hack) I can't I gotta cough
