I wanna live in midtown. And wear a three piece suit.

I want a fancy limo. Just to hear my driver toot.

I want a penthouse. So high i'ts hid from you.

Cause when i have these things that i want, i wont want you

You're just a girl with a look on her face, nothing much more than that, I'll find another girl to take your place and i'll do it in a second flat.

Well hey, hey, todays the day, those who pay, they get to stay, those who don't i hate to say you gotta

Pack

Your

Shit

And move your shit away

.

I wanna meet a model, who's only got one name

She will take me out to parties, and treat me to cocaine.

I wanna make her love me, just like you used to do.

Because when i have the things that i want, then i wont want you.

You're just a girl with a look on her face, nothing much more than that, I'll find another girl to take your place and i'll do it in a second flat.

Well hey, hey, todays the day, those who pay, they get to stay, those who don't i hate to say you gotta

Pack

Your

Shit

And move your shit away.

Today i ate a carrot for breakfast, tomorrow i'll do the same,

It doesn't seem right, that a guy like me should be...

Eating carrots for.. breakfast.

Well hey, hey, todays the day, those who pay, they get to stay, those who don't i hate to say you gotta

Pack

Your

Shit

And move your shit away.

This is for the never girl, the girl i never knew. the one who never pledged her love or promised to be true.

This is for the never girl, who never promised to be true, who never bought me cookies or took me to the zoo. This is for the girl who never promised to be true.. NEVER GIRL.. Fuck You.

Well hey, hey, todays the day, those who pay, they get to stay, those who don't i hate to say you gotta

Pack

Your

Shit

And move your shit away.
