Why do you call me madona  
when your sitting on my face  
you should call me my brother  
because i'd rather be in his place

My doctor said  
u you have removed you mind  
and now my armour said  
i surly mess with your kind  
fucker said  
make the life to become new  
With this cop out answer

What do you mean vern  
what do you mean  
what do you mean vern  
How can you see  
when you sleep with me

I had a dream last night  
to be, the next revelation

i had a dream last night to be  
next to your infections  
next time you father me  
don't give me your bastard lectures  
next time you mother me  
i mean if

and when  
you had me in my arm  
and and had you in my sites  
and you knew your limites by  
will you except me for what i am  
will you respect me for what i am  
i told a lie in my  
fast criminal eye  
will you forget the stuff  
i have to give up  
all of my rites and i

what do you mean vern  
what do you mean  
when you sleep with me  
do you see vern  
how can you see  
when your life was ment for me

I don't exist  
Like a fish  
i'm on the bed  
i have a revenge for your insides  
I do admit

What do you believe  
what do you mean  
what do you see

what are you to be

Next time you follow  
i will not be there  
like a man with the rabies  
in a wooden pale  
adoption is a menace  
but i wouldn't know  
that starvation is a privilege  
and the fuck you go

I don't have a feeling  
but i have a brian  
and the wine is a pocket that is in your name

your erring, your erring are in my sites

and haven't gpot the feeling to make it right

What do you mean vern  
what do you mean  
what do you mean vern  
what do you mean  
when you sleep with me  
do you see vern

how can you see when your eyes are next to me
