Do you have fire for my cigarette?  
Yes, but at first you have to go with me in bed  
Oh, what a very, very good idea  
And after that we wanna drink a very lot of beer

We are the firefuckers  
We are the firefuckers  
We are the firefuckers  
We come to fuck in your town

I play the guitar only for the shine  
I look, a women, that is very fine  
We are coming for fucking but you gotta know  
We fuck for nothing, only for show

We are the firefuckers  
We are the firefuckers  
We are the firefuckers  
We come to fuck in your town

SOLO!

We are the firefuckers  
We are the firefuckers  
We are the firefuckers  
We come to fuck in your town

And when the show is finished and you gotta go  
There's a helping hand, you need it so  
Come on, come on, why do you be so shy  
Fucking with a guitar player, don't ask me why

We are the firefuckers  
We are the firefuckers  
We are the firefuckers  
We come to fuck in your town
