Driving through the desert looks all right
Driving through the desert looks all right
Going to a place where all the lights shine on

Going fast that's the way we go
Going fast that's the way we go
Going to a place where all the lights shine on

Try to follow us and you will get lost
Try to follow us and you will get lost
Going to a place where all the lights shine on

The cops are on our tail but that's all right
The cops are on our tail but that's all right
We wont pull over and that's it

Fuck you!
