Deep in the pit and lying alone  
Where death has reared itself a throne  
We're all the good, the bad  
The worst and the best  
And where they land is their eternal rest

Foul plays of passion  
At twilight's dim  
In joy of woe, of good and sin  
Winds of storm and fates overcast  
Darkly my presence  
Is now your past

Join the insanity  
Or die as you fall  
Into the pit!  
The mass production  
And the killing of all  
Into the pit!  
The future screams for help  
Are fading away  
Into the pit!  
The world tomorrow  
Will it die for today?  
Into the pit!

So in the sad, silent watches of night  
The lonely pathway envisions my sight  
Echoes of laughter  
And boundless cries  
So here I wander under infinite skies

Join the insanity  
Or die as you fall  
Into the pit!  
The mass production  
And the killing of all  
Into the pit!  
The future screams for help  
Are fading away  
Into the pit!

The world tomorrow  
Will it die for today?  
Into the pit!
