Psychological warfare  
The first step in creating a situation  
Dreams... of new... lies confused  
Lies to you will truth shine through  
What the rain won't wash away  
The sun is black with shades of gray  
Reflections of these stranger days  
Live through new eyes  
Die through old

New eyes... eyes... lies  
Conflicting worlds upon your back  
The weight will fate undo  
Seen through eyes of new...  
Crucify me sanctify me... now  
Live through new eyes  
Die through old

New... new eyes of old  
Live... dream... die

Destined to repeat... doomed to forget...  
Destined to repeat... doomed to forget...

Out with the old, in with the new  
Naive and blind a curse for our time  
We live our lives day by day  
Our hearts bleed with fear... lies  
It's not too late to make a change  
We won't survive these strange days

Crucify me... sanctify me... now  
Seen through new eyes die through old

New... new eyes of old...  
New... new eyes of old...  
Destined to repeat... doomed to forget...  
Destined to repeat... doomed to forget...  
New Eyes of Old  
New Eyes of Old
