Through the shadows of her minds  
Through the rainbow of her time  
It is you and me

Through the shadows of her minds  
Through the rainbow of her time  
It is you and me

It's you and me  
That's what I want to be  
You and me  
You and me

It's you and me  
It's what I want to be  
You and me  
It's you and me

We both run and run  
and run and run and...

It's you and me  
That's want I want to be  
You and me  
You and me

It's you and me  
That's want I want to be  
You and me  
It's you and me
