"Face in The Sky"

Shadows glow from the full moonlight
Hear clouds cry, it's so insane
Souls hold on to the key of life
See how it's bleeding from the pain

When will they open their eyes
Stop to face our demise
It's live or die
Who am i?
Face in the sky

Walk with me, my friend
To a darkened place
Welcome down to the abyss
Caught between two worlds
With no advocate
The legions' army
Holds on to your fate

When will they open their eyes
Stop to face our demise
It's live or die
Who am i?
Face in the sky

Screams from the night
Seems to intensify
As the air shifts silent through
Ghouls crowded in the clouds
On a misty night
Guarding secrets
Man has brought to you

When will they open their eyes
Stop to face our demise
It's live or die
Who am i?
Face in the sky
