Psychological warfare  
The first step in creating a situation

Dreams of new lies confused  
Lies to you will truth shine through  
What the rain won't wash away  
The sun is black with shades of gray  
Reflections of these stranger days  
Seen through new eye  
Die through old  
Who

New eyes, eyes, lies, lies

Conflicting worlds upon your back  
The weight will fate undo  
See through eyes of new  
Crucify me, sanctify me, now  
Live through new eyes  
Die through old

New, new eyes of old  
Live, dream, die

Destined to repeat  
Doomed to forget  
Destined to repeat  
Doomed to forget

Out with the old, in with the new  
Naive and blind a curse for our time  
We live our lives day by day  
Our hearts bleed with fear  
It is not much time to make a change

We won't survive these strange days  
Crucify me, sanctify me, now  
Live through new eyes  
Die through old

New, new eyes of old  
New, new eyes of old

Destined to repeat  
Doomed to forget  
Destined to repeat  
Doomed to forget

New eyes of old  
New eyes of old
