You wanted money, you wanted fame  
You broke the rules before you know the game  
Bounds tearing you up like a knife  
Wish it was the end of your life

It's a nightmare, going down that road on account of  
you  
No escape from the things you put me through  
I don't know, I don't care, I can't go anywhere  
It's a nightmare, coming back to you

Don't wanna die, just wanna live  
I've got stop taking what they give  
So many roads moving all around  
I only see the one going down

It's a nightmare, going down the road on account of  
you  
No escape from the things you put me through  
I don't know, I don't care, I can't go anywhere  
It's a nightmare, coming back to you  
Coming right back to you

We got to fight, we got to try  
When all is gone we'll know the reason why  
To kill the enemy, we will win the wars  
To find the place our life was before

It's a nightmare, going down that road on account of  
you  
No escape from the things you put me through  
I don't know, I don't care, I can't go anywhere  
It's a nightmare, coming back to you, to you, to you
