"Parasite City"

Visit "[Parasite City](#)" on MotoLyrics.com

Down to the Parasite City
The scum will gather
Rippin' flesh without pity
A cause with no matter

"Your suffering will be legendary even in hell!"

Election marked with a stigma
A scar in the blackened core
Even the dead rose for the vote
To honor our fearless leaders
The sons of butchers and warlords
Merchants of death and glory
The parasites are in the system
Bring in the exterminators

Flesh eatin' parasites
Gather to compromise
The system, the future, the existence
From the ashes brave new Babylon rises!

Like a fire under my skin
They have infiltrated within
Blood will be shed in vain
Understanding ends with this pain

Election marked with a stigma
A scar in the blackened core
Even the dead rose to vote
To honor our fearless leaders
The son of butchers and warlords
Merchants of death and glory
The parasites are in the system
Bring in the exterminator
