Take it or leave it
I'll always be there
Take it or leave it
Grant me a reason

Always come asking
You'll never be mine
I'll ask how much
but you'll say I'll mind

You want to say
Do you understand
You wanna say

Take it or leave
You're all by the phone
Take it or leave it
How much do I care

I try to learn a lesson
Not very sure
You always ask me
How much did I hurt

You want to say
Do you understand
You wanna say
