Sing low the baby 'cos we're here tonight
Together everyone is here in sight
The world and them, no they don't see our sky
But no it isn't right
Wash all the clothes when he is here in sight
I couldn't even be and try to hide
You've got my baby till the day I die
It's so cold outside
Here comes the big sleep scene in my eyes

[INSTRUMENTAL]

Here comes the big sleep scene in my eyes
I go away 'cos daddy wasn't feeling right
The clouds passing by me in the moonlight
No coming down now that I've got the time
Oh, I was born to fly
Here comes the big sleep scene in my eyes
Here comes the big sleep scene in my eyes
Here comes the big sleep scene in my eyes
