Every night before I rest my head  
Hold me close as I draw another breath  
Still hoping, that our love's not broken

Every flight that we plan ahead  
Look to the skies for the words that I've said  
Still hoping, that our world's not broken

So tonight, you're everything upon the screen  
And everything I want to be  
I'll come with you and dream my dream

So tonight, in every way I want you to stay  
And every little word you say - oh

Every morning when I wait for you  
Each way I look you'll see something new  
Still hoping, that my world's not broken

Every time I dream crazy dreams  
Of bright water and brightless sunbeams

I'm hoping, that my mind's not broken

So tonight, you're everything upon the screen  
And everything I want to be  
I'll come with you and dream my dream

So tonight, in every way I want you to stay  
And every little word you say - oh

*[INSTRUMENTAL]*

So tonight, you're everything upon the screen  
And everything I want to be  
I'll come with you and dream my dream

So tonight, in every way I want you to stay  
And every little word you say  
I'll come with you and dream my dream

So tonight, in every way I want you to stay

And every little word you say - oh
