When you touch me, I feel there's nothing
You could do to turn me away
And I know that in the past you've had bad luck
So I should help you stay

You're all I ever wanted
You're all I ever needed, it's you
You're all I've ever wanted
And loving you is the right thing to do
And I'll see it through

When I close my eyes and think of you
It takes me places that I've never seen
And the rain, it blows, you're brushing up
Against my skin to wash me clean

You're all I ever wanted
You're all I ever needed, it's you
You're all I've ever wanted
And loving you is the right thing to do
And I'll see it through

I'll show you the love in my head
I'll show you the love that we had
I'll show you the love in my head
I'll show you the love that we had

You're all I ever wanted
You're all I've ever needed, it's you
You're all I've ever wanted
And loving you is the right thing to do

You're all I ever wanted
You're all I've ever needed, it's you
You're all I've ever wanted
And loving you is the right thing to do
And I'll see it through
