Attention annoys me, I could disappoint
So just take a walk and try to avoid
The cars in the street now, they could knock you down
So just take a bus, it's a long, long way down
There's a ticket in my hand if you want
I don't know what you think

Tell me where you wanna go
Take a breath when I ask you to just try
And close your eyes, I'll take you there
I could take you anywhere, come fly
Yeah, tell me what you wanna do
And I can make it up for you and lie

Laughter annoys me, makes me feel sad
Yeah, I wrote that book, can I have it back
There's black all around me and I'm lost in this crowd
There's no coming back 'cause I'm on my way down
There's a ticket in my hand
I can't use it without you

So tell me where you wanna go
Take a breath when I ask you to just try
And close your eyes, I'll take you there
I could take you anywhere, come fly
Yeah, tell me what you wanna do
And I can make it up for you and lie

So tell me where you wanna go
Take a breath when I ask you to just try
And close your eyes, I'll take you there
I could take you anywhere, come fly

So tell me where you wanna go
Take a breath when I ask you to just try
Yeah, tell me what you wanna do
I can make it up for you and lie

So, tell me where you wanna go
I will put that ticket in your hand, in your hand
