Me and the snow vines quiet light
Very overlaid and seen
I watch them falling from this category
But that's the risk I take
But that's the risk I take

You said we're meant to be together
You left with someone I know
Took one bite straight from the apple
And now my love has flown
Well you said you wished you knew me
You can't have everything
For I knew I wouldn't know you
But I got under your skin

And the stars are falling cold
I smell the hail and snow
Turning cold inside his locks of hair
But that's the risk I take
But that's the risk I take

You said we're meant to be together

You left with someone I know
Took one bite straight from the apple
And now my love has flown
Well you said you wished you knew me
You can't have everything
For I knew I wouldn't know you
But I got under your skin

[INSTRUMENTAL]

You said we're meant to be together
You left with someone I know
Took one bite straight from the apple
And now my love has flown
Well you said you wished you knew me
You can't have everything
For I knew I wouldn't know you
But I got under your skin

But I got under your skin
But I got under your skin
