"You Gave Me Love"

You take me down, down to your room
What could we find here
Don't pretend that you never knew
Knew this would happen

Cause you take, you take
And now you'll face the truth
It's your turn now, it's your turn now

You gave me love (x4)

It's morning now
Do you feel afraid lying there
And we speak to each other
Like we never met before

Cause you've attentions
Turn around one day
You've had your time
You gave me love (x4)

Come on and lay me down
Take a chance with me
and reach my brow

I said come on and lay me down
Take a chance with me
and reach my brow

I said come on and lay me down
Now take a chance with me
and reach my brow
