"You'll Never Know"

Visit "[You'll Never Know](#)" on MotoLyrics.com

You never knew, when the world stood still
How I lost my head
You never knew, when you heard my name
How you had to go
When you left me so

Now you'll never know
Beliefs will never show

Come on, come on, come on
And rescue me
Didn't I glow for you
Didn't I show for you
Come on and rescue me

It's always been down to your behaviour
How you've lead the way
It's always been I never was a saviour
In the smallest case, you're just saving face

Now you'll never know
Beliefs will never show

Come on, come on, come on
And rescue me
Didn't I glow for you
Didn't I show for you
