(Intro)

When you wish upon a star  
Your dreams will take you very far  
We're visionaries do you wanna know  
Do you really wanna know

(Hook)

An brain for an eye  
Plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist it's the resurgens  
I got a brain for an eye  
A plain for your plight  
Visionary music take a slice of the

(Verse)

Respiratory raps I'ma breathe the fresh air  
Around this rap tec, aiming for your heart check  
I took away your life line  
But now I'm back to sacramental rap flag G  
It's back to fatal rap to back to be  
A rap's last motherfucking life line  
It's life's life line  
Calling for the trife times  
So basking all of my illuminated glory  
I really take the L up out of glory  
Allegorical getting gory  
You should take the L,  
And you should take an L and light it up to gain esteem  
Why took one body self esteem  
Smoking a steam, steamy higher than the others  
Lime lighter lift my raps  
Swisher brighter lit my self esteem  
See my lucid dreams teams dreams is to reality  
And I just made that turn up to pet up my regime  
Evil conceivable, rap's a dazzle unbeatable  
Juveniles annihilate and throw them all in the Nil  
River, Jordan, 23 and flowing like a River Jordan  
Only in my rookie season they calling me out

Over and out

(Hook)

A brain for an eye  
Plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist it's the resurgens  
I got a brain for an eye  
A plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist  
'Cause you don't even exist

(Verse)

Hear my echo, invigorating the ghetto  
Slum ville's universal guess I am the last hope  
To come to grammar shit load a confidence  
I built a rap dynasty your prominence  
You niggas looking on some on teen years of  
undeniable  
I'm liable to sell heat, CD diabolical  
Audio strokes, lost tapes, rap chronicles  
The verses of the montress ye what's Manny it's  
demonicals  
Sue religion, new religion sorta super pasidistic  
Seven flow sabbatical but niggas isn't sacrilegious  
And gwap low get the gwap ow and now you know  
Red light like you shit to no go  
The rookie and this bitch made a diversity with top  
honors  
This visionary music still popped a pop collar  
Scrubbing real realest regime  
I revoke you in the name of rap  
Now I got the black

(Hook)

A brain for an eye  
Plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist it's the resurgens  
I got a brain for an eye  
A plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion

Like you don't even exist  
'Cause you don't even exist

(Verse)

It's like the mark of the beast  
Caught in the karma caught in collision  
Karma police they cuff in cardiac arrest  
A vision the vigilantes and visionaries  
Candle and vigil visions  
A piece and pieces from the police  
Patrolling and holding pistols  
OCD rap I knock before I lock the door  
And I'ma live and then die like I was Roger Moore  
Living in the center of the sentiment it's sentimental  
The sense of ties with the pride of a lion that's  
instrumental  
Adrian Monk style, valorous type knives  
No need to broadcast 'cause they know he is  
J57, napalm weapon with the reason of betray and the  
beast create the final reckons  
Hold up, castrate and bless them with the keys  
Live visionary, vision blurry I can't even see right  
From Nany token from the piece pipe under the street  
light  
Caught a contact but fact and every word I recite  
I couldn't read an aura like read an aura order  
In order and see the main course drinking the calm  
nerve

(Hook)

A brain for an eye  
Plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist it's the resurgens  
I got a brain for an eye  
A plain for your plight  
Visionary music take a slice of the pie  
See you caught in an illusion  
David Copperfield confusion  
Like you don't even exist  
'Cause you don't even exist

(Verse)

But now I'm back to being young black Jesus  
Face hanging out of what my Jesus peace pace was  
Epitome a peace with canaries is to say the least  
It ain't the least, checking made 'em for some fish  
Godlike complex that God's unlike  
Just a position never said I live my life right

Over the edge until them nigga see them head lights  
Luminate your mind your rap schemes from your lucid  
dream
