I need to know, I need to know, I need to know what is
mine - I got to go,
I got to go, I got to go my own way - I have to find, I
have to find, I
Have to find what went wrong but Nothings wrong,
nothings wrong, nothings
Wrong if I start the fire - and I don't care what I've
said - somewhere back
In time - let's get outta here - let's get it all alive -
there is no more
Hiding, no more hand in hand, no more hiding (let's
get around) - what I
See, what I see, what I see is not what I get - what I
want, what I want,
What I want is not what I need - the one who dares - the
one who dares, the
One who dares will be the winner babe - and nothings
wrong, nothings wrong,
Nothings wrong if I start the fire - I don't care what I've
said -
Somewhere back in time - let's get outta here - let's
get it all alive -
There is no more hiding, no more hand in hand, no
more hiding (let's get
Around)
