You're leavin' tongue marks on the carpet

And I know what you're lookin' at

You would walk on your lips through busted glass

If you could get next to that

You think this is love

Your education starts today

So you think this is love?

So tell me

How bad do you want it?

How bad do you want it?

How bad do you want it?

Not bad enough

So you put a hold on happiness

....a day, a week, a year

You got to bring somethin' to this party, boy

If you party here

And if you're lookin' for love

You better look some other way

If you're lookin' for love

I have to ask you

How bad do you want it?

How bad do you want it?  
How bad do you want it?  
Not bad enough  
She gave you love and affection  
Enough to weather any season  
You found an excuse to walk away  
But you didn't find no reason  
And you talk about love  
But you don't know what it means  
Yeah, you talk about love  
So tell me

How bad do you want it?  
How bad do you want it?  
How bad do you want it?  
Not bad enough
