"Land Of Love"

Visit "[Land Of Love](#)" on MotoLyrics.com

Come, let us go to the land of love
Where the love light shines so bright above
In that land where the people are gay
Love will get stronger and stronger everyday

You won't find true happiness here
All your pains will let you be
You're gonna find that love is real
By the things that you feel

Come, let us go to the land of love
Where the love light shines so bright above
In that land where the people are gay
Love will get stronger and stronger everyday

Come, let us go to the land of love
Where the love light shines so bright above
In that land where the people are gay
Love will get stronger and stronger everyday

You won't find true happiness here
Come with me and have no fear
You're gonna find that love is real
By the things that you feel

Come, let us go to the land of love
Where the love light shines so bright above
In that land where the people are gay
Love will get stronger and stronger everyday

Come, let us go to the land of love
Where the love light shines so bright above
In that land where the people are gay
Love will get stronger and stronger everyday
