I can't control  
I need you closer to me  
And again and again  
I never know  
Your body gives such a thrill  
I go down I go down

Only you move the world around me  
You lovin' me anyway  
Is it you what I ever searched  
Boy without you I go down

Call me baby call me I want you  
Da da da darling  
Tell me that your love is true  
Uh uh da da darling  
Call me baby call me I need you  
Uh uh da da darling now you're gonna make it too

I can't exist  
It seems that my life is gone  
And again and again  
I can't resist  
I'm sleeping here near the phone  
I go down I go down

Only you move the world around me  
You lovin' me anyway  
Is it you what I ever searched  
Boy without you I go down

Call me baby call me I want you  
Da da da darling  
Tell me that your love is true  
Uh uh da da darling  
Call me baby call me I need you  
Uh uh da da darling now you're gonna make it too
