Wake up in the morning  
Feel like I'm a brand new girl it's OK  
Sun or rainy day?  
Love is getting stronger you know it baby

I try to fight it, but I need you by my side  
Now it's time for lovin'  
Don't turn away I wanna feel you again

You are my energy, givin' power to me  
Light my fire you're good energy  
Getting closer to me

Energy like a sun over me  
Burning fire you're my energy  
Hottest lover for me

Can't you see me falling  
Loosing my control burning all around me  
Give me all your lovin'  
Deep inside my heart all my love is free

I try to fight it, but I need you by my side  
Now it's time for lovin'  
Don't turn away I wanna feel you again

You are my energy, givin' power to me  
Light my fire you're good energy  
Getting closer to me

Energy like a sun over me  
Burning fire you're my energy  
Hottest lover for me
