Thunders and sparks into the dark  
In the street there's something strange so terrify  
Presence and shadows dancing  
In this scary night so howling

You better staying to bed and don't catch out the nose  
Close the windows lock up the doors  
But maybe you would prefer  
Pick the bloody rose  
Go insane with horror and pain

Welcome the Halloween night with the peek-a-boo  
Falling down taboo deadly mask voodoo

Welcome the Halloween night meet your bugaboo  
In the dark we will suck your fresh and blood

Thunders and sparks into the dark  
Into bed you feel yourself as crucify  
Presence and shadows calling  
And your mind you know is fooling
