Dreaming in the morning
Dreaming everyday
I always think of you, baby
I'm only hoping that our love starts
Like our love train never lazy

We're in the oyster falling down into the ocean
How could we shelter you and me
You took away and now you have just so solution
So come on keep on loving me
Touch me, come on baby
Feel me, come on baby
Kiss me, yes I need you
Touch me, come on baby
Feel me, come on baby
Hold me, need your fantasy

Dreaming in the morning
Dreaming everyday
I think I'm gonna go crazy
You sound amused but dreams are true
So kiss me and wake me up baby

We're in the oyster falling down into the ocean
How could we shelter you and me
You took away and now you have just so solution
So come on keep on loving me
Touch me, come on baby
Feel me, come on baby
Kiss me, yes I need you
Touch me, come on baby
Feel me, come on baby
Hold me, need your fantasy
