Like the promise that springtime holds
And the innocence of youth
There's a chemistry between us now
and it speaks a simple truth

When love is all you have on your mind
When the feeling is right
We become one of a kind
When love is all you have on your mind
Baby, look in my eyes and you'll find
Love's on my mind

When I'm lying beside you, boy
And you rock me in your arms
Between the passion and surrender I find
All the secrets of your charm

When love is all you have on your mind
When the feeling is right
We become one of a kind
When love is all you have on your mind
Baby, look in my eyes and you'll find
Love's on my mind

Fantasy becomes reality
And I believe I've found perfecton
By the look in your eyes
I see the rest of our lives
We'll be living in ecstasy

When love is all you have on your mind
I took a chance on love just to find
Love's on my mind

When love is all you have on your mind
Love's on my mind
love is all you have on your mind
Love's on my mind
love is all you have on your mind
Love's on my mind
love is all you have on your mind

Love's on my mind
love is all you have on your mind
Love's on my mind
love is all you have on your mind
Love's on my mind
