I've heard a rumor or two
about someone and you
But I would not believe them
They say the things that you've done
were just in fun
But you know I would not take that
What are you doing
Cause the way you've been acting is so unattracting
Who are you fooling
I think it's time to say

You're skating on thin ice
I can feel it in your kiss
Start changing your behaviour
or it's me you're gonna miss
You're skating on thin ice
And you better watch your lips
If you don't straighten up
I know that you gonna slip
You're skating on thin ice
Yes you are

I'm gonna lay down these rules
that you must be cool
And not to be for granted
If you think that this ain't true
Just watch and you'll be through
I'm telling you I really mean it
What are you doing
Cause the way you've been acting is so unattracting
Who are you fooling
It's time for you to know

You're skating on thin ice
I can feel it in your kiss
Start changing your behaviour
or it's me you're gonna miss
You're skating on thin ice
And you better watch your lips
If you don't straighten up
I know that You're gonna thin

skating on thin ice

Dig, don't go telling me those lies
cause I don't wanna hear them
Be honest or disappear
out of my life for good
Don't be misunderstood
Cause you know that you could be
You're skating on thin ice
I heard a rumor
thin ice
And you better watch your lips
thin ice
I can feel it in your kiss
thin ice
I know that you're gonna slip
thin ice

I can feel it in your kiss
Start changing your behaviour
or it's me you're gonna miss
You're skating on thin ice
And you better watch your lips
If you don't straighten up
I know you've been skating on
thin ice

I can feel it in your kiss
Start changing your behaviour
or it's me you're gonna miss
You're skating on thin ice
And you better watch your lips
If you don't straighten up
I know that You've been skating on
thin ice
