There's some left over wine the cupboard  
About a half a glass left for the road  
Here's a toast to the time we were lovers-then I'll go  
Should I laugh, or should I cry?  
Love you, hate you, live or die?  
CHORUS  
Is my heart half full or half empty?  
Is our love like the wine in this glass  
You drink like there's no tomorrow  
So sure, it would always last  
Will the memories taste sweet as they linger  
Or the bitterness stay on my tongue  
Is my heart half full of the love you gave me  
Or my heart half empty cuz your love is gone  
Your bags are all packed in the hallway  
The boxes are stacked on the lawn  
You kissed me goodbye just like always  
And you're gone  
Trembling hands or nerves of steel  
Someone tell me what to feel  
chorus
