(Lenny Kravitz/Henry Hirsch, Lenny Kravitz)

Tonight, I'm yours
And you are mine
I know a place we can hide
I know a place
Where we can finally see the rainbow
And we can fly fly fly fly fly

I know a place
Over the lonely lonely rainbow
Where we can make things right

I know a place where we can
Always be
And we can go tonight

I know a place where we can live our lives
And I know a place
Where we can see the light

I know a place
Over the lonely rainbow
Where we can make things right
Over the lonely lonely lonely lonely
rainbow.
