"I Will Lead You Home"

When you're out of breath
With nothing left to give
When you're left behind
Laying on the ground
When all I see
is sadness in your eyes
When all you want
is reasons you can't find

This town is getting smaller ever day
I'll leave with you, we'll find another way
When you're left alone
Just hold on
I will lead you home again

Aimless watching people passing by
You're disappearing got lost in the crowd
Leaves are falling slowly to the ground
Lovers walking hand in hand without a sound

This town is getting smaller ever day
I'll leave with you, we'll find another way
When you're left alone
Just hold on
I will lead you home again
