#### Intro

Yeah, some thought I couldn't do this  
But I'm here to prove them wrong  
Cos I thank God above He got me here thus far  
It's been a long journey from when I first started  
Now I'm here to stay, so get ready cos you're  
gon remember my name  
Ho, ho, ho, ugh, ugh

#### Chorus

Here we go again (It's like this), we rock for the top  
again (It's like this)  
Here we go again (It's like this, it's like this, like  
this, ya bo)  
Here we go again (It's like this), we drop for this  
spot again (It's like this)  
(It's like this, it's like this, like this, like this, like  
this, ya bo)

#### Verse

Here we go we gon get busy best to stand up  
If ya ready come on and get those hands up  
We bout to party get jiggy we got some bomb to drop  
This flow you never stop it come on lets tear it up  
It's not an option cos we pump it like we funk a lot  
So best get serious lock it down from bottom to the top  
You wanna see me flip it katz wanna see me drop it  
Come on lets step it up lets burn it up this time we lock  
it  
One to the three this hip hop to the fullest  
I'm never gonna stand down cos chumps will make  
me lose it  
Like a man possessed for ten years this how we top it  
One more time cos no other gonna flip it like this  
I was born to rock on like a man on a mission  
To take the mic and shock it hard core in position  
You know we getting pretty you bet we show no pity  
Break it down like this number one I know you hear me  
We're taking over ya city cos we're just God  
blessed  
Like Lord Disciples on a path there's no contest

One by one I'll pull you up outta ya slump man  
Spread the word the boss is in ya building man  
You best get focused Armageddon's getting closer  
man  
No time to waste the clocks tickin can ya handle man  
Now ya understand it's in the palm of ya hand  
Me and my crew makin our stand to the last man  
On and on you're in the presence like the twelfth  
wonder  
Droppin thirty two bars it's time to feel the thunder  
Pray on ya suck it in man cos we on ya like a swarm of  
killer bees  
So bow down on ya knees  
It's like this, here we go again  
It's like this, we be back again  
It's like this, it's like this  
It's like this, like this, like this, like this  
Ya bo, ya bo
