#### Intro Chorus

You got to ride with us, you got to ride with us, get up  
and ride with us, you got to ride with us

#### Verse 1

Well as I put this track down check my flow now  
Boss is up in your town so party people gather around  
Representor Eikon we got them master beats  
I been doing this thing since the turn of the nineties  
Dedicated individual I'm stacking up instrumentals  
Original phat beats banging hard at your temple  
Recognise I go hard everyday just to get the pay  
Sleep and living it I wouldn't have it any other way  
No doubt about it I'll be knockin' out hit records  
now and then  
Composing the beats for the love of the streets again  
and again  
So strap on your safety belt we about to get busy  
I'm licensed to thrill with the illa beats behind me  
So throw down don't slow down  
Is my motto for success you got to keep up with my set  
I'm locked on getting my thing on  
The words out on the streets yeah it's time to get it  
on

#### Chorus x2

If you wanna come and catch a ride with us, just get on  
the bus and come and ride with us  
You got to ride with us, you got to ride with us (yeah  
lets get it on)

#### Verse 2

I'm back up with it doin' my set I ain't  
finished yet  
I'm Rotorua's hip hop power and don't  
forget it  
I'm the master B O double S yes excuse me while I  
get my flow yes yes  
Well I'll be stretchin the zone to the maximum  
Rock the primetime and rise with the best of them  
(yeah)

Lord of the beats I got my love for the streets  
Sure monies real sweet but I ain't no counterfeit (ah  
ah)  
Messin' around is just not my style  
You better believe it cos I'll be around for a while  
Bout to put Aotearoa on the worldwide map  
Boss is uprising coming up in the ranks (oh yeah)  
I'll keep it tight for the late night hype  
You know it's on kickin' double decibels all  
night (ugh)  
Straight out your speakers for your eardrum  
Packin' platinum tunes 2005 beyond beyond

### Verse 3

Well ain't no stopping me now I'm still running  
my game  
Trackin' six digits we're rising up to the fame  
No doubt about it my hearts apon this thing  
And everyday and all night I'm still doin' this  
thing  
Like I said I'm layin my cards down and they're  
comin' up trumps  
So bring it on cos we're ridin out with blazin' guns  
We be most frequently jammin' the hot spots  
Sweatin' kilojoules at the after party's non-stop  
So if ya hear me just let me hear ya hollar  
We be blowin' out tracks thaty'll be makin' hot dollars  
Stackin' up cash in the bank tradin' mo beats  
for mo dimes  
We makin' flock for the top and kick out the hard  
times  
Cos it's all about doin' it put your back in to it  
We can procrastinate or just defy the limits  
So hold up strong we got this beat thing on  
Eikon for Aotearoa baby, Aotearoa!

### Bridge x4

If you wanna come and catch a ride with us, you got to  
ride with us

### Outro

Well I'll be packin' and knockin' out them
