I'd like to take you home
So that we can be alone
We'll go for a walk
And then we'll go home not to talk

And I don't care if you don't treat me like a lady
And I don't care just sit there and don't disobey me
Mistress never tells a lie
Would you love me gagged and tied?
It's not your style
I can see, crack a smile

It's okay with me
I just want the company
Put on Venus in furs
And you can go home after work

And I don't care if you don't treat me like a lady
And I don't care just sit there and don't disobey me
Don't treat me like a lady
Mistress never tells a lie
Would you love me gagged and tied?
It's not your style
I can see, crack a smile

Would you love me gagged and tied?
Would you love me gagged and tied?
Would you love me gagged and tied?
Would you love me gagged and tied?

Mistress never tells a lie
Would you love me gagged and tied?
Mistress never tells a lie
It's not your style
I can see you crack a smile
It's not your style
I can see you crack a smile
