[Hi-Tek]

Ah-hah, yeah uhh  
Tek-Zilla, Zilla, that's me baby  
I know you done heard it all before but uhh  
Uhh

I wanna take you back to the good ol' days  
Good homecooked food, good ol' steak  
Long walks in the park, we would talk forever  
Me and you together was the golden era  
Never thought you'd be my ex-dame, Jones on the phone  
Used to give you long pet names, now I feel alone  
Got me zonin off track, lookin at your pics  
Feelin like Big, "I want that ol' thing back!"

[Chorus: Ayak]

Can we go back to that {\*2X\*}  
Can we go back, I wanna go back {\*2X\*}  
Ba-bayyyy...  
Can we go back to that {\*2X\*}  
Can we go back, I wanna go back {\*2X\*}  
Ba-bayyyy...

[Ayak - singing]

Holdin hands, in the park  
Doin all, the things that lovers do  
Is how I remember you  
You showered me, with kisses sweet  
You made me feel, like I was your queen  
Feel safe in your arms just where I wanna be  
So wrapped and so in love  
We would talk, makin plans sittin on {?} stumps  
Long gone are those days  
But I say, can we...

[Chorus] with ad libs

[Talib Kweli]

Why not, let's do it  
You keep it fresh like the 'dro in a sack, you rollin and

blowin it back  
You growin I'm knowin the game is whack but I know  
what I lack  
Niggaz used to love H.E.R. but now she just a hoe on  
the track  
She's strippin up though out of stack, I wanna blow out  
her back  
Shame we lowered the rap bars, replaced with this  
whack  
I'm sharp like the slasher that stab ya, hittin ya face  
with the dagger  
Still I be faced with the task of shakin they ass  
She gotta bubble like she, takin a bath, we takin it back,  
yeah

[Ayak - singing]  
Lookin back, at what we had  
How did it end, it's such a shame baby  
Cause you were my all end everything  
In my mind, you were fly  
But over time, how is it we change  
No matter what I wish it won't be the same  
Can't rewind to times we were in love  
Never thought we'd end up breakin up  
Long gone are those days  
So whaddya say...

[Chorus] with ad libs
